How does it work? Bulk buying enables discounts to be negotiated, so you get the advantage. Many discounts are provided through paying less than the face value of an e-gift card, which is delivered to you instantly. EG you pay just \$90 for a \$100 David Jones e-gift card (saving \$10). You receive it immediately after paying for it so you can even buy them on your mobile device while in the store. Convenient and immediate savings. Some other savings are available when buying online, through a Cashback arrangement. EG if you buy a fragrance from **Strawberrynet**, at their already discounted price, **Strawberrynet** will put 10% of the price into your online account. You can then spend that money on another e-gift card or transfer it into your bank account. (Cashback is a bit like loyalty points, but it uses real cash)

The Fine Print - The discounts mentioned above are correct at the time of publication. Discounts go up and down from time to time. We want you to be 100% satisfied, so you can leave at any time if you are not 100% satisfied.

There are no waiting periods. You start saving as soon as you join.
That means every day you delay joining is costing you money you could have saved!
