How does it work? Bulk buying enables discounts to be negotiated, so you get the advantage. Many discounts are provided through paying less than the face value of an e-gift card, which is delivered to you instantly. EG you pay just \$92 for a \$100 David Jones e-gift card (saving \$8.00). You receive it immediately after paying for it so you can even buy them on your mobile device while in the store. Convenient and immediate savings. Some other savings are available when buying online, through a Cashback arrangement. EG if you buy a fragrance from Strawberryret, at their already discounted price, Strawberryret will put 10% of the price into your online account. You can then spend that money on another e-gift card or transfer it into your bank account. (Cashback is a bit like loyalty points, but it uses real cash).

Who is included? You and all your dependent family.

The Fine Print - The discounts mentioned above are correct at the time of publication. 01-05-2020
