

API Leisure & Lifestyle

With your API Leisure & Lifestyle membership, you will never pay retail prices again!

Your API membership delivers a huge range of meaningful savings all year round at over 350 of your favourite retail stores. You don't have to change where you shop. With your membership you get discounts at the same shops, through API's bulk buying power. You will easily save over \$1,500 each year! Also, the discounts you get with API Leisure & Lifestyle are in addition to any sales within the retail store.

Here are just a few examples of how you and your family can use API membership to receive

How does API membership work?

Bulk buying enables discounts to be negotiated, so you get the advantage. Many discounts are provided through paying less than the face value of an eGift card, which is delivered to you instantly. EG you pay just \$90 for a \$100 Rebel Sport eGift Card (saving \$10). You receive the eGift cards immediately after paying for them so you can even buy them on your mobile device while in the store. Convenient and immediate savings. Some other savings are available when buying online, through a Cashback arrangement. EG if you buy a fragrance from Catch.com.au, at their already discounted price, Catch.com.au will put 3% of the price into your API online account. You can then spend that money on another eGift card or transfer it into your bank account. (Cashback is a bit like loyalty points, but it uses real cash).
